Weshington, Nov. 23.

Siz:—I was present, yesterday, at an exhelling of Sauds & Cummings! Brick Marbine. It appeared to me to be conveniently arranged, to be simple in its construction, not likely to get out of order, and it did its work querty and effectually. I think it a very good machine.

In charge of Weshington Aqueduct and Extension of U. States Capitol.

Wearmann, November 22, 1533.
Son —I this day had the pleasure of witnessing the ejeration of Measure, Sanda & Commings machine for making back, and most say that the performed much better than II expected. I can, therefore, recomend at to the public as a valuable labor-saring machine, as it tempers the clay and modifs the brick at the same time.

Thave wincesed the operation of Messrs, Sands & Cummings' Patent Brick Backing, and consider it unequated in simplicity, and in the perfection of its results, by any machine of any class that has corn under my observation. CHAS EVERETI, late of the Patent Office.

Wissinords, D. C., November 23, 1888
It is with much pleasure that I am prepared to say, that having witnessed the operation of making brick, by a new patented machine, by Banda & Quemings, it by far exceeds my expectations. It is very simple in its construction, and some in its operation. From my experience as a p-sected my experience as a p-sected models for the purpose, I better it to be far superior to anything I have ever seen. It can be worked with certainty and great facility, by the most orden my insort, while attempts the clay and models for the same these are these. I would expectably recommend it to all borer, while recommend the same time. I would especially recommend to the persons engaged in the breek business.
